Introducing Apostrophe!

The `comint` conversation mode for emacs that uses language models.

```
apostrophe
    An exclamatory passage in a speech or poem
    addressed to a person (typically one who
    is dead or absent) or thing (typically one
    that is personified).

    It's a little bit like a soliloquy.
```

Talk to people

```
apostrophe Amber Heard
```

```

                                                   rden of
- you: Hiya! My name is Shane. It was really great seeing your commercial toda\
y!
- Amber Heard: Oh thank you! I really liked your commercial as well!
- you: !!
- Amber Heard: Hey, thanks!
- you: You're really talented. What are you up to this year?
- Amber Heard: I'm working on my new album. I hope to release it in the spring\

- you: Cool! What's it called?
- Amber Heard: It doesn't have a name yet. It's still in the works.
